

TUITION FEES 2013-14 – UK and EU Students

For the purpose of charging fees, a student is classed as a UK or EU student if he/she has been normally resident in the UK/EU for three years prior to commencing his/her course, and that residency has *not* been wholly or mainly for the purpose of full time education. Otherwise he/she will be classed as an overseas student.

1. University accreditation fees are included in the fees shown.
2. Students who have completed their Registration Period with the University but who have not yet submitted their thesis are in their 'writing up' period. The write up fees shown are charged for each term or part of a term until their thesis has been formally submitted to the University.
3. A separate fee is charged by the University when the student's thesis is submitted, to cover the cost of examination. This is charged only once, at the time of submission, unless the thesis has to be re-submitted.
4. Students are expected to visit their Supervisor/s from time to time. For this purpose, accommodation on the campus can be provided on request (subject to availability). Lunchtime and evening meals are optional but must be pre-booked when booking accommodation. While on campus students can make full use of the library facilities.
